

## Task #1

Create a striking poll

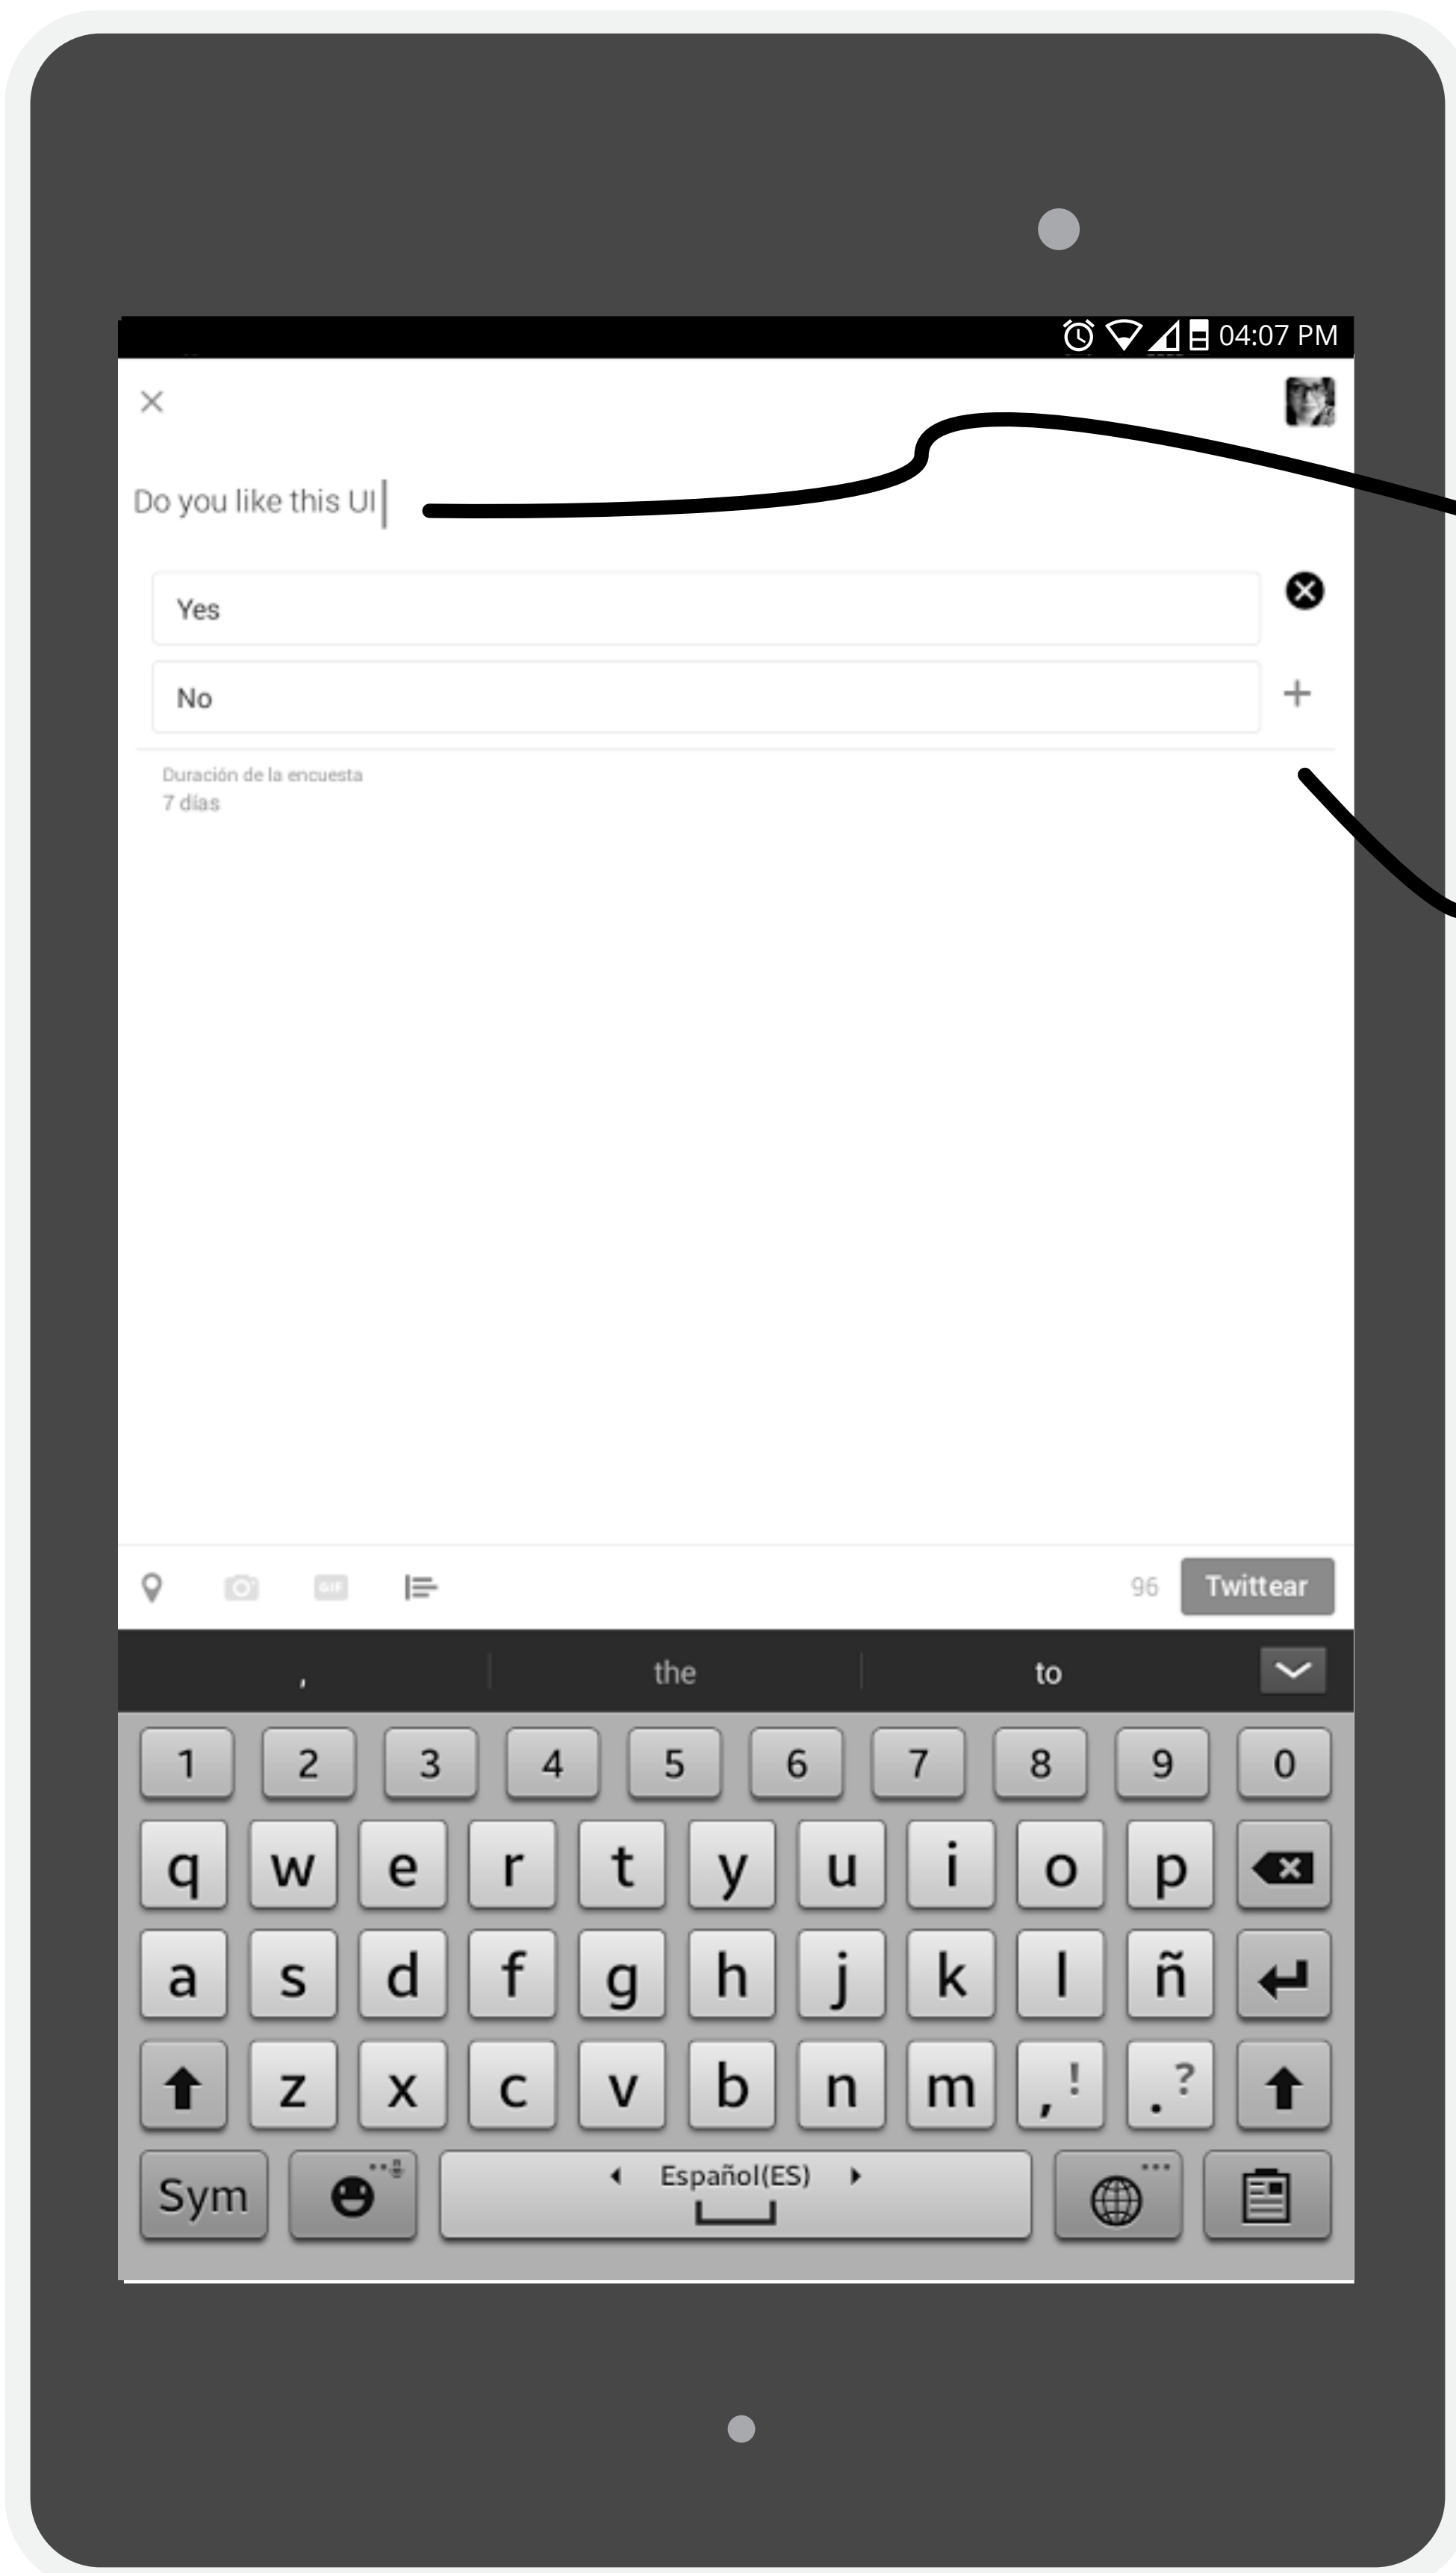

... Tap to create a new message

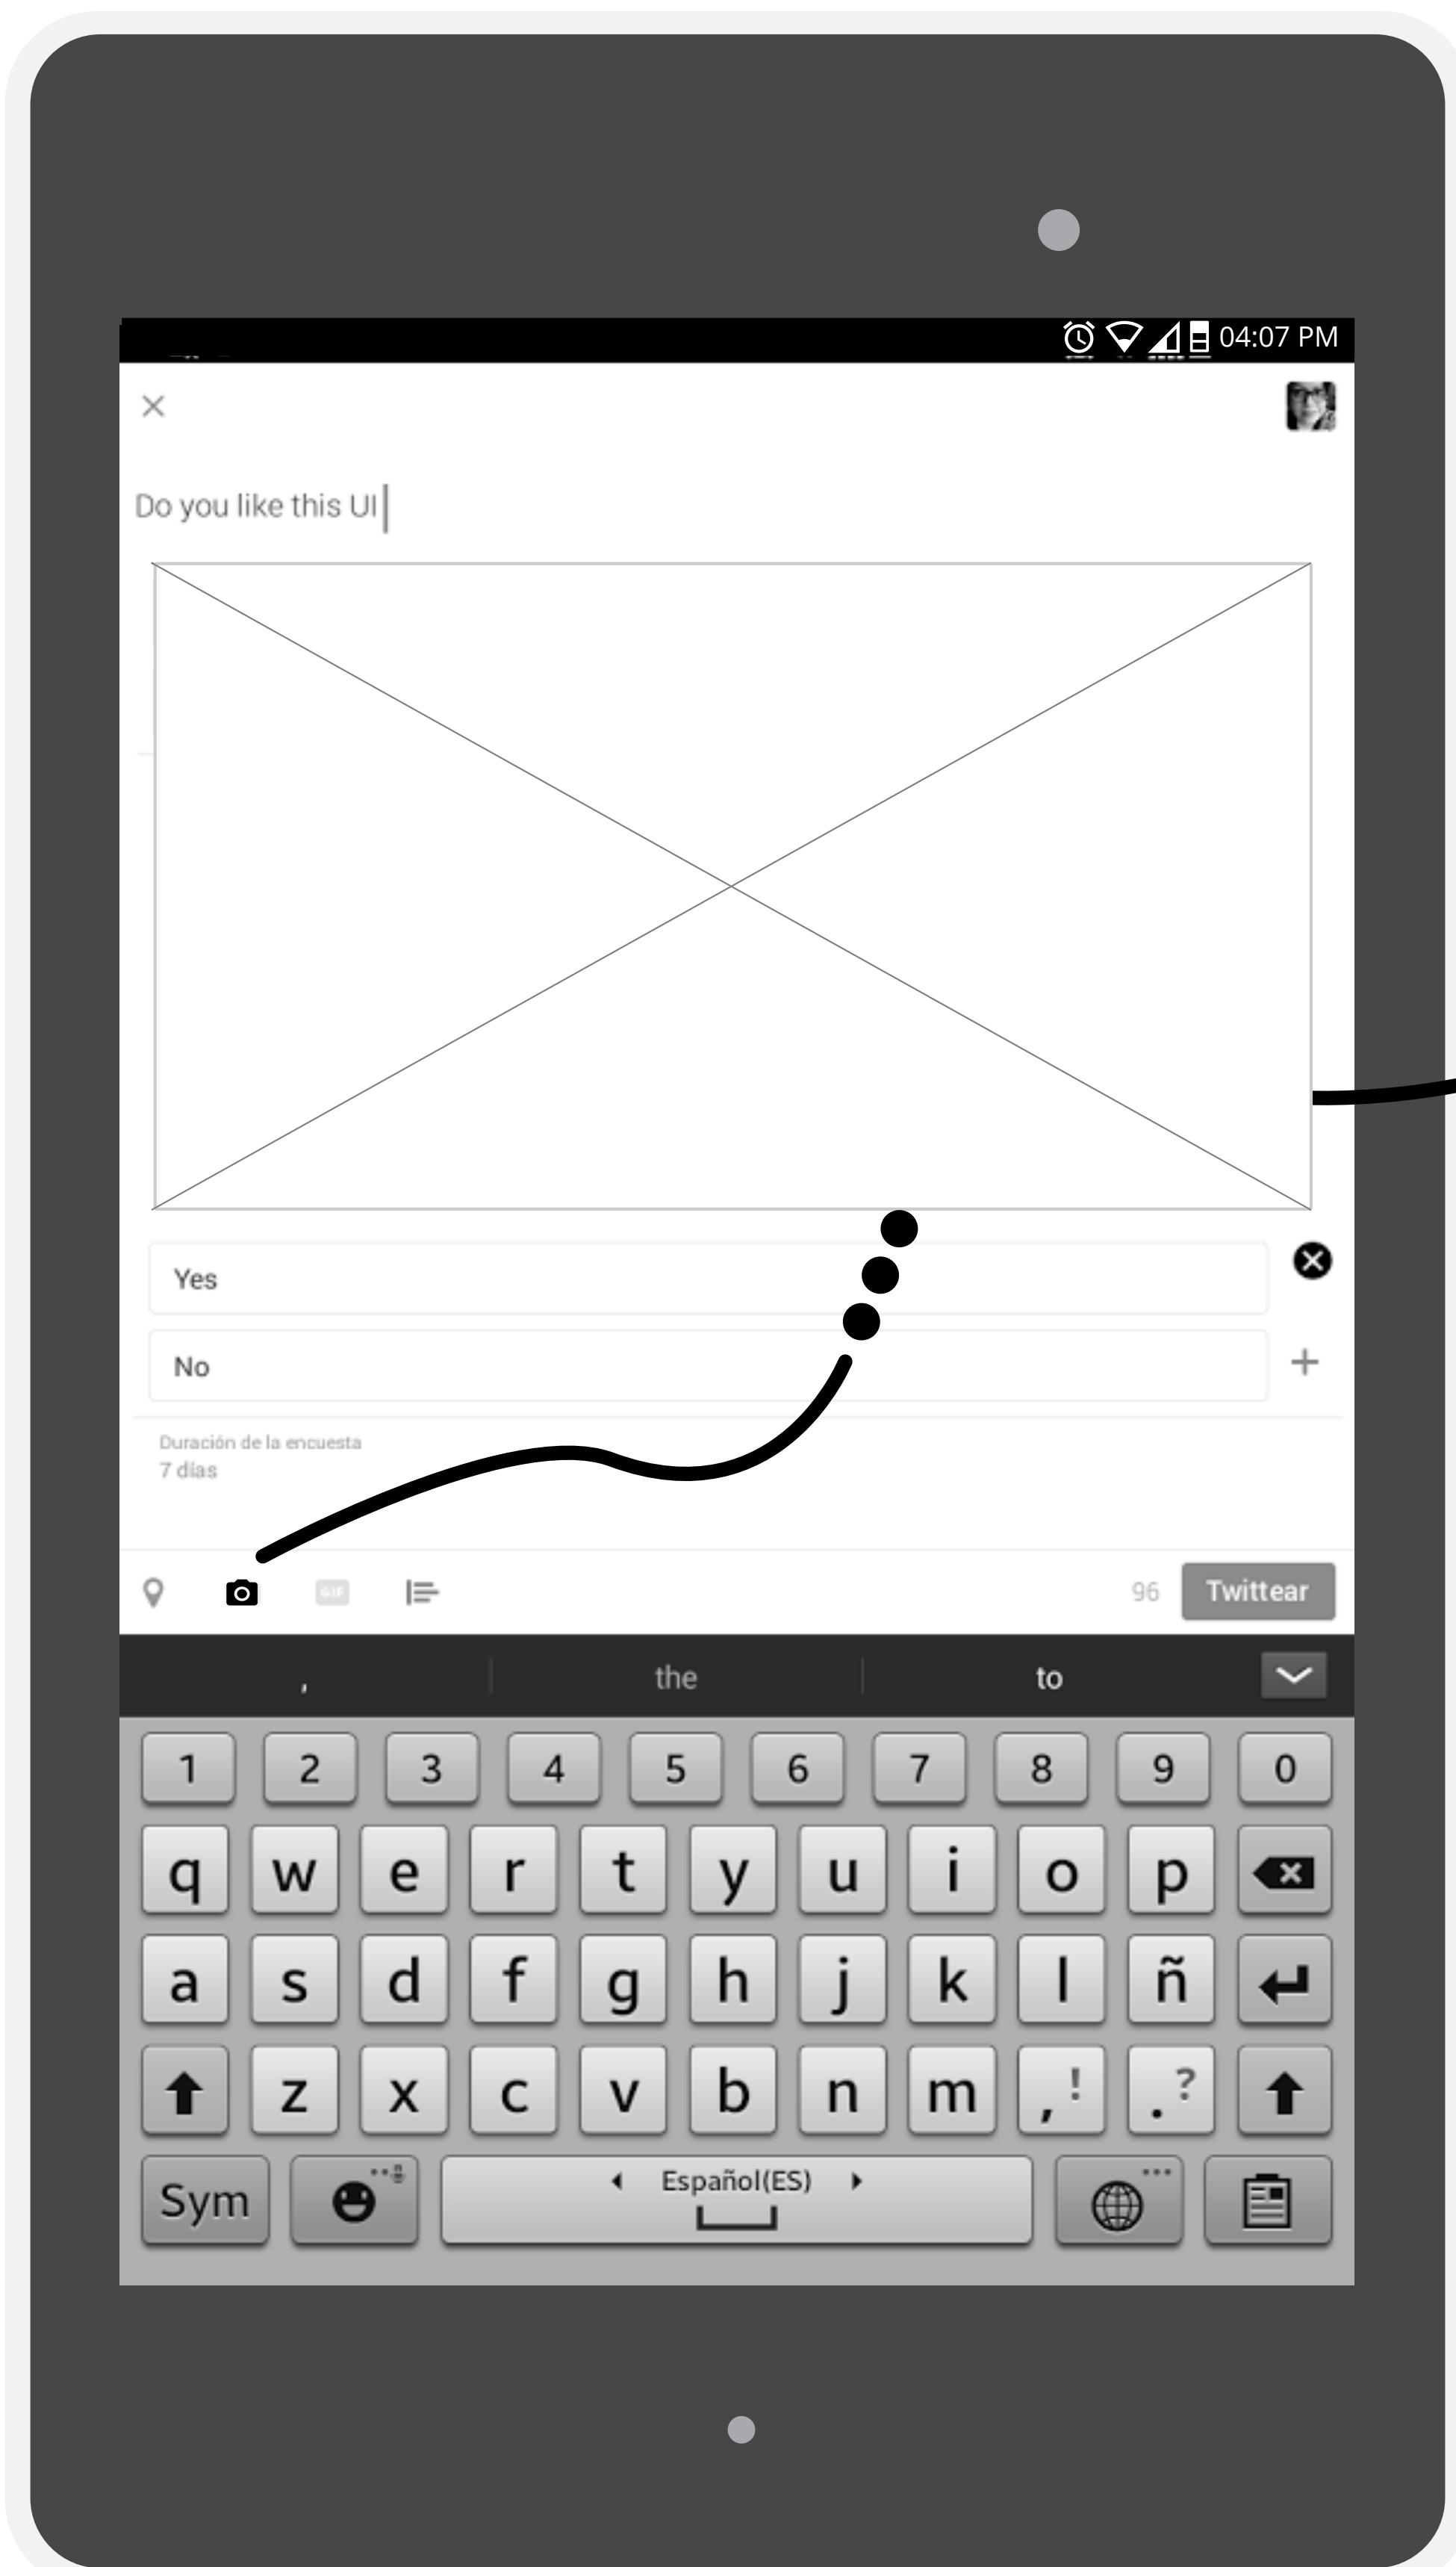

Tap in the poll icon

••• Create the question you would like to make in your poll.

••• Add the possible answers

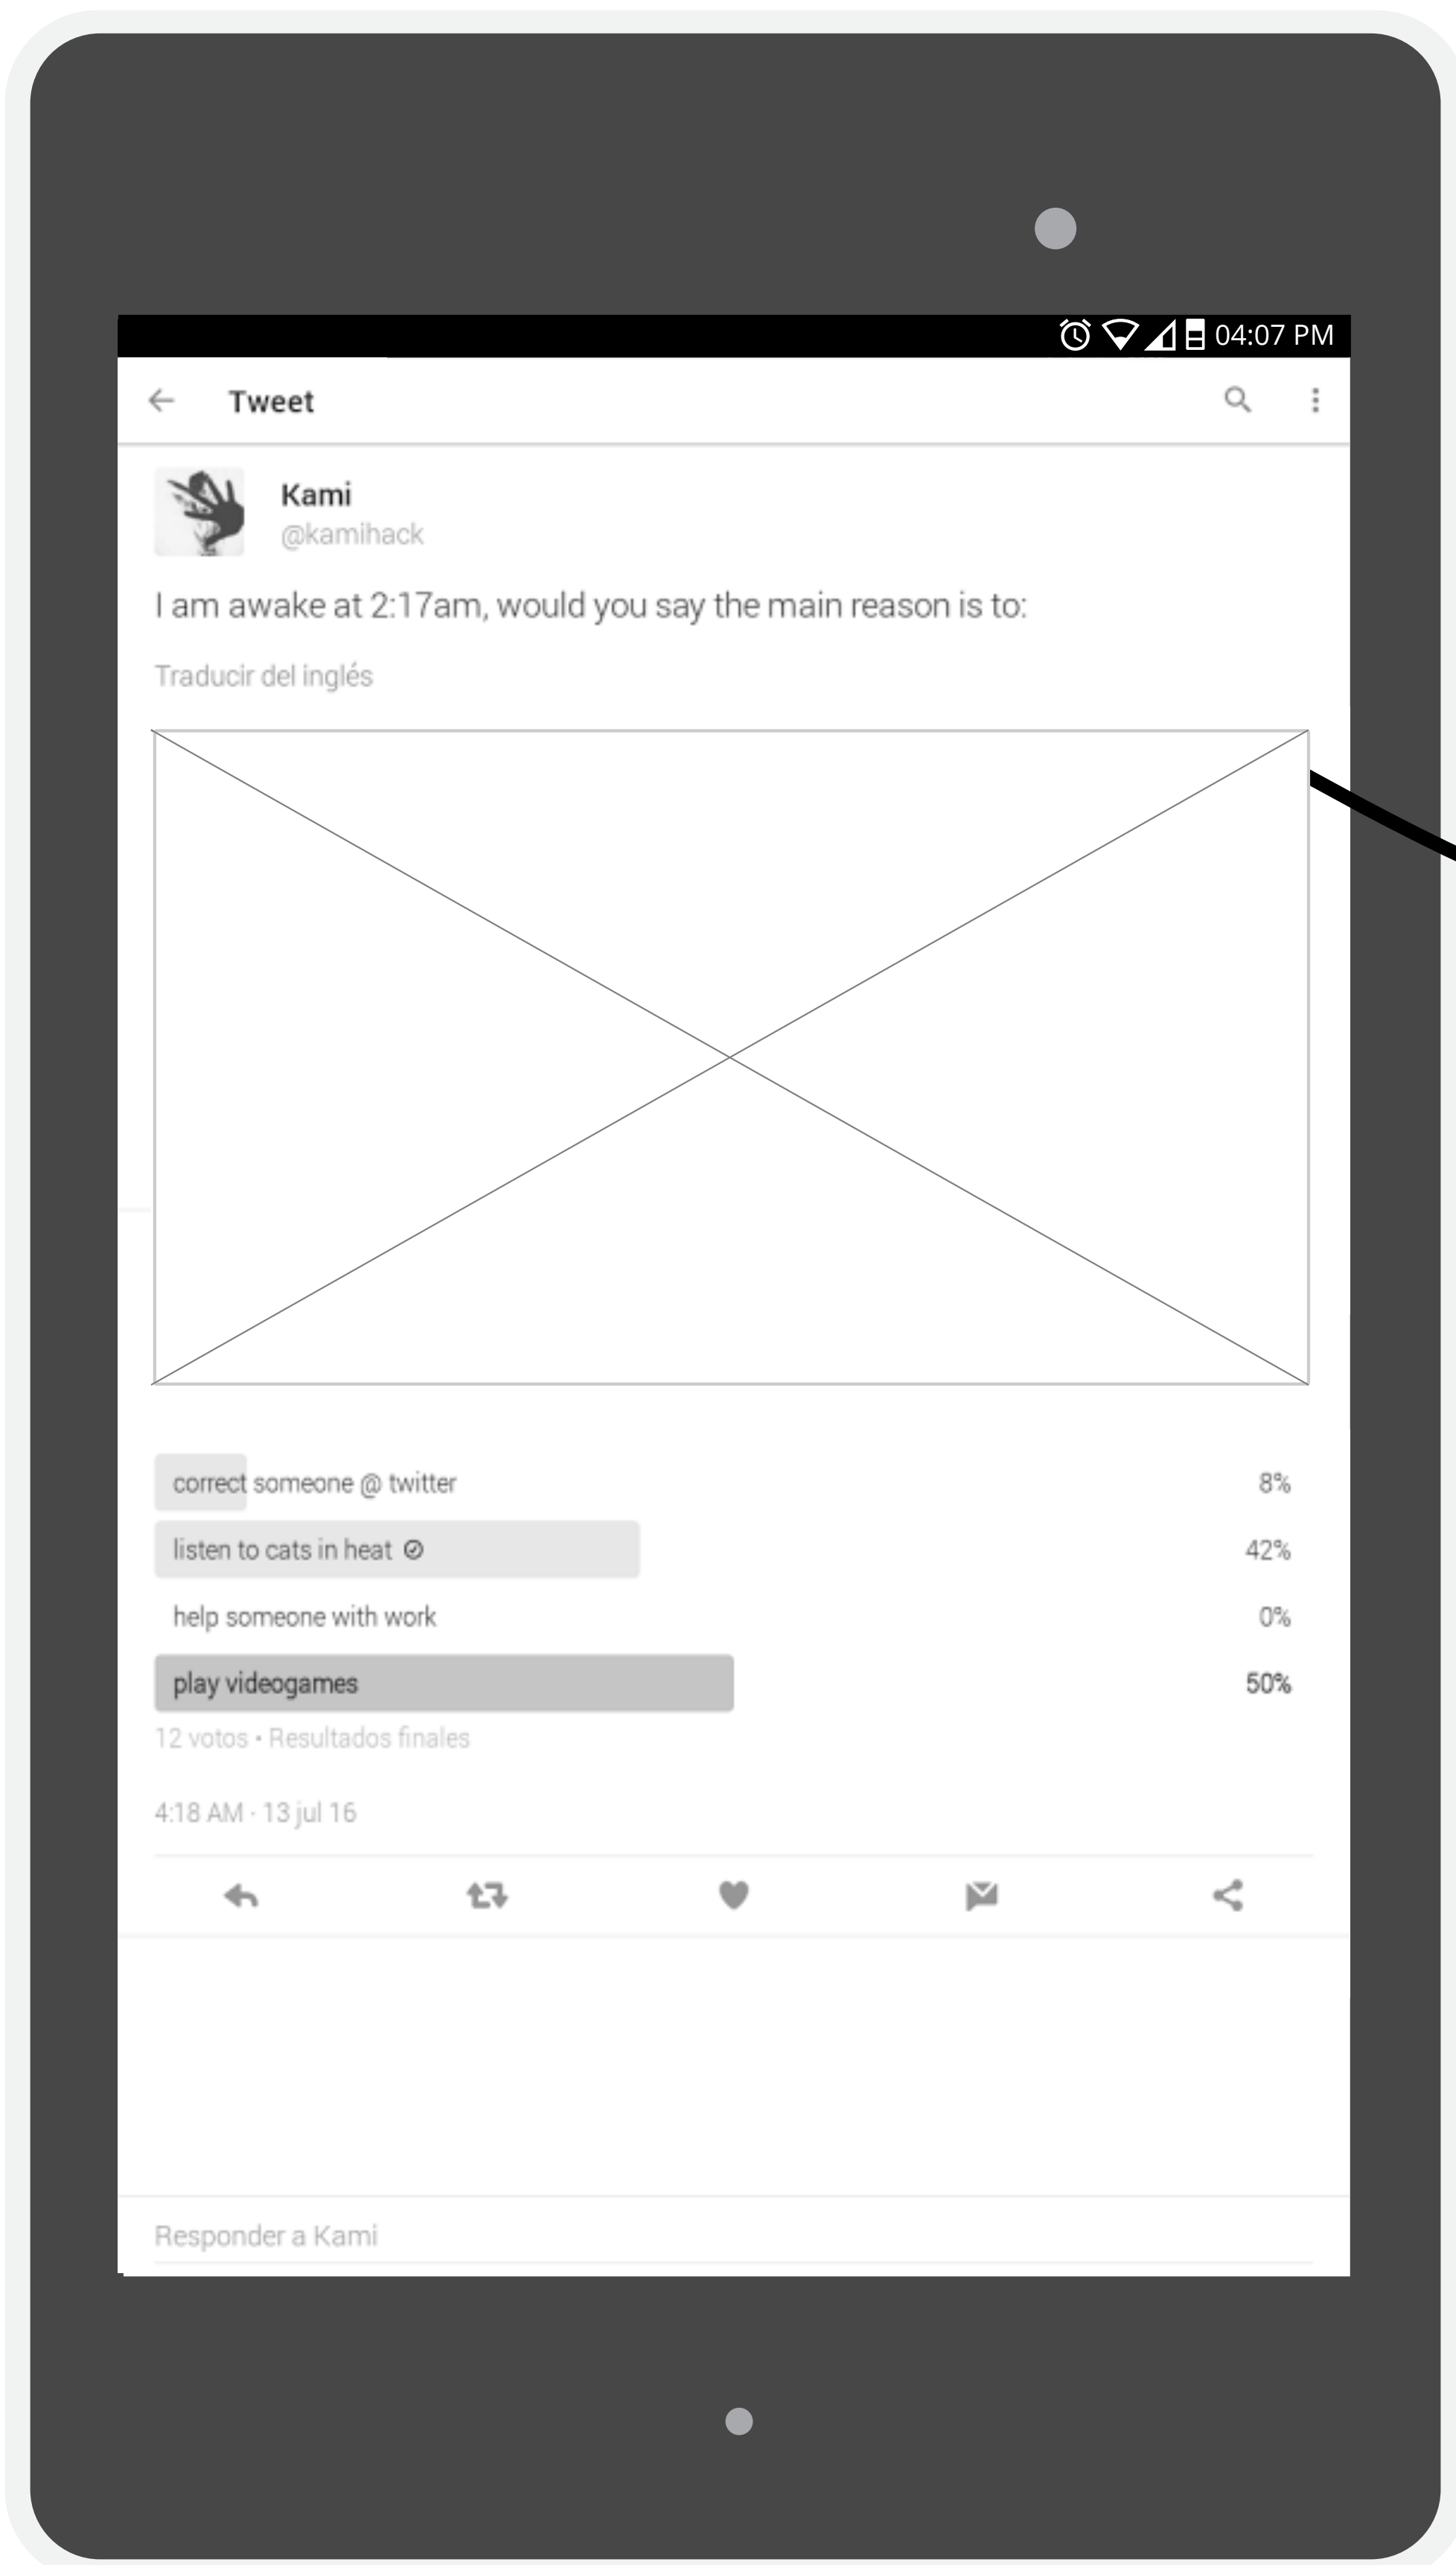

••• **Suggested change:**

The ability to add an image to a poll. Photographs are already available to any tweet.

The marked space will be perfect for yes/no question.

But it should be a little bit more complicated with more than two questions (under the fold)

**Suggested change:**

This will be the space to show the image added to the poll. It will also look the same in the TL.
